PRACTICE IN THE NETHERLANDS

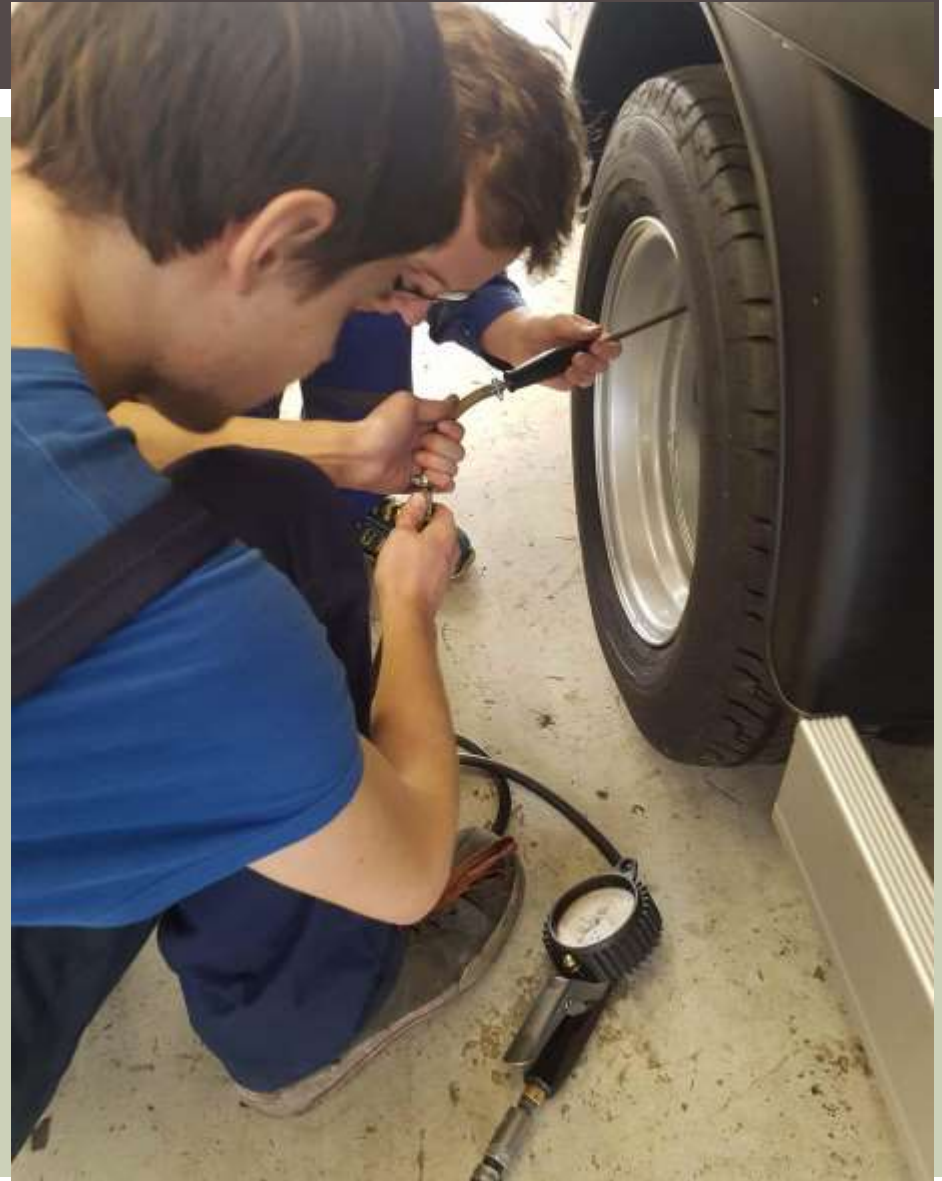

**MADE BY: POVILAS ALEKSANDRAVIČIUS;
ROKAS JEFREMOVAS.**

MONDAYS TUESDAYS

On Mondays and Tuesdays we worked in the Mercedes-Benz service. Our activities were related to seasonal tire changeover, oil, filters, brake pads, also we checked the air level in the wheels.

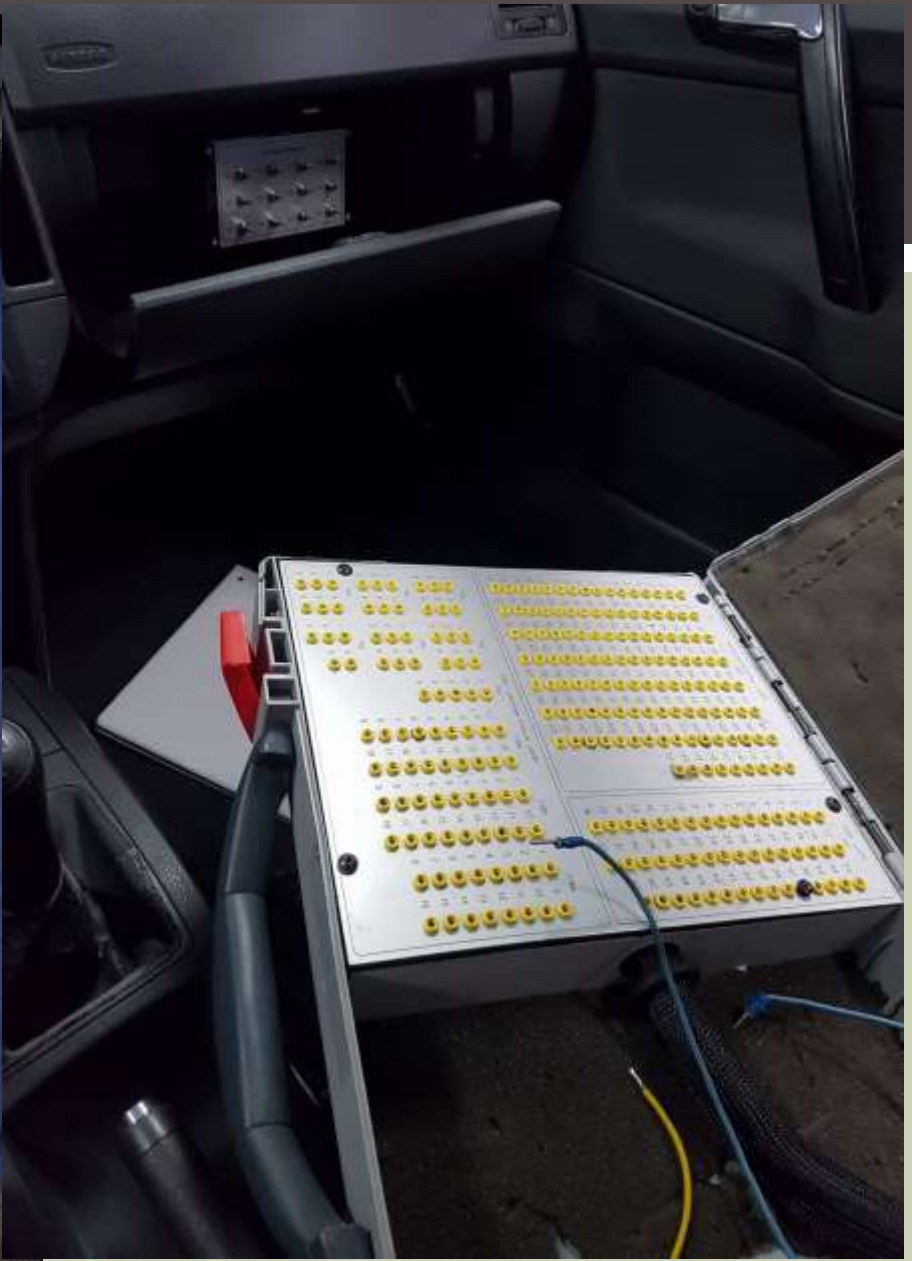

WEDNESDAYS

On Wednesdays there was practice at the school with all the students. We did various work related to the module, we used oscilloscope. By signals, we resolved the cause of the signal change.

THURSDAYS

On Thursdays we were at school, but only for two hours in the morning. We did homework and talked with the teacher. After the school we had free time walking around the city. On the 6th of December 6th we went to the ESSEN MOTOR SHOW in Germany.

FRIDAYS

On Friday there was a lesson related to the module (Network in the car). We learned how it works, why it's better than ordinary wires and what it's designed for.

MOMENTS FROM THE CITY OF GOUDA 😊

ERASMUS+

- The Erasmus program is unique. It makes more opportunities to improve our skills. We can learn more about another country culture, meet new people. This program helped us to improve our communication with other people in another language, to trust ourselves. We saw what kind of program they benefited from school and got acquainted with the service work. We want to say thanks for everything to the teachers (Ted Kompier, Bart Hoekendijk). They were very friendly and always asked if everything was fine and how they could help us. We saw a great things that in our country couldn't see.
