

**Product Evaluation criteria for the International professional excellence competition
"Joiner 2023"**

The contestant receives 100 points for:

- Product accuracy (conformance to the engineering drawing): 30 points.
- Quality and precision of joints/combinations: 30 points.
- Surface quality (roughness, scratches, mechanical damage): 20 points.
- Accuracy of work with manual and hand-held electric power tools: 10 points.
- Workplace organization and workplace safety: 10 points.

Notes:

If the contestant consults his/her vocational teacher (accompanying person) or other third party, he/she may lose points.

The evaluation committee has the right to eliminate a participant of the competition if he/she behaves dishonestly, does not follow the rules, safety requirements or instructions of the committee, and behaves in a way that harms the proper conduct of the competition.
